New York, Sept. 24, 1920.

Dear Sir:

Greatly appreciated the two bulbs of Wauchakum you sent me last spring and think they are wonders. * * * B. F. D.

Feb. 17, 1921.

Dear Sir:

I herewith enclose Money Order for \$.50 for two packages of your "Sunlight Sweet Corn." We tried it last year and enjoyed it so much, besides having more corn for the table than we ever had before that we wish to plant the same this year.

L. A. C., Vancouver, Wash.

Massachusetts, May, 1920.

Dear Sir:

I want a hundred of your "pig in a poke" collection. This is the third lot I have had and have been well pleased. * * * E. H. N.

Ohio, Nov. 20, 1919.

Dear Sir:

* * Goldfinch which I received from you grew very nicely and we have marked it 4x among the choice ones of our collection, which is not a small one. E. C. S.

Massachusetts, 1919.

Dear Sir:

From the accidental mixture of last year we had 9 Pendleton, 5 Rouge Torch, 2 Attraction, 3 Blue Jay, 3 that were almost smoky colored, a number of Halley and some of the handsomest Prim. Hybrids I have ever seen. Also there were 7 that I have called Mongolian, after a comparison with two Mongolian we had of you in 1917. This will show you why I buy 100 of your "pig in a poke" every year. F. A. N.

The Best Standard Varieties.	ooob
AMERICA.—Beautiful lavender-pink, almost white in	eacn.
the throat	. 05
ARIZONA ROSE.—Lilac rose, medial line of lip French	. 0 0
purple. Good substance	. 20

SWEET ORRA.—Pale sulphur	. 15
TUPELO.—Canary yellow	. 25
VEGA.—Pure yellow	. 25
One bulb of each above 25 varieties listing \$5.15 for \$	4.00.

GLADIOLUS SEED.

The growing of new varieties of gladiolus from seed is a fascinating pursuit. Seed should be planted early in the spring in drills one inch deep and the ground covered with old burlap or matting to prevent drying up until the tiny plants are well up, when covering should be removed and care taken that the soil is loose and does not get dried out. I offer seed from my best varieties at \$.25 per packet. Also seed from Primulinus Hybrids at \$.25 per packet, 5 packages for \$1.00.

N. B.—Seed bloom in three years.

ACCIDENTAL MIXTURE.

In the course of a year a large number of bulbs get accidentally mixed, and any that I am not positive about, are thrown into this mixture. It contains mostly named varieties and while I guarantee rothing yet there are some of my best varieties included. If you want to buy a "pig in a poke" try some of these.

NEW PRIMULINUS MIXTURE.

A grand mixture of hundreds of Kunderds varieties with a large number of varieties of my own origination. An endless combination of colors and shades from the most delicate colors through orchid tints to the deep colors. Many strong, tall and ruffled varieties may be found.

Everyone should grow at least a few of these. \$.50 per dozen postpaid; \$2.00 per hundred, postage extra.

Figure postage of 8 lbs. per 100 to your zone.

BROWN'S SUNLIGHT SWEET CORN.

For several years I have been developing an extra fine sweet corn which is a cross of Stowell's Evergreen and Golden Bantam. I have secured a corn as sweet as Bantam with yellow kernels and a much larger ear. My customers are "wild" over it. If you like sweet corn try a package of this.

About 500 kernels\$.25

DAHLIAS.

I grow just one kind of dahlias for my cut flower trade and have selected this one as the best all around free blooming and desirable kind—MAUDE ADAMS,—Overlaid clear delicate pink which opens out to nearly a pure white. Very satisfactory in every way. Each \$.25.

Massachusetts, Feb. 10, 1920.

Dear Sir:

* * * Also send a package of your inimitable sweet corn. We tried the corn last year and found it first class, comparing favorably with another much advertised kind and has a smaller cob.

G. A. P.

THE NEW ENGLAND GLADIOLUS SOCIETY.

Organized April 3, 1920 as the Massachusetts Gladiolus Society.

OFFICERS FOR 1921-1922

President—Charles F. Fairbanks, Lexington, Mass. 1st Vice President—S. E. Spencer, Woburn, Mass. 2nd Vice President—John Zeestraten, East Bridgewater, Mass. Treasurer—C. W. Brown, Ashland, Mass. Secretary—Robert R. Walker, Mansfield, Mass.

Executive Committee

S. E. Spencer

A. L. Stephen

Jelle Roos.

Exhibition Committee

Robert R. Walker, Chairman B. J. Norley Herbert W. Hayes

Auditor

F. H. Goodwin

Initiation Fee \$1.00.

Membership Fee \$1.00 per year.

The Second Annual Exhibition

was held at Horticultural Hall, Boston, August 13-14, 1921, in conjunction with the Massachusetts Horticultural Society, at which time 189 prizes were offered in 86 classes and brought out what was said to be the largest exhibition of gladioli ever shown in the United States at least, if not in the world. The prizes offered amounted to over \$900.00.

Already plans are being made for the third annual exhibition and the Society also plans several other things that should

prove of benefit to every grower of gladioli.

We want your cooperation. If you reside in New England, join the Society at once. This is the least you can do to popularize the flower in order that others may enjoy the pleasure of growing them.

Next, compete at the next show, even if you only enter one

flower in one class, it helps make a successful show.

Then if you are able, just offer a prize to be competed for by others at the next show. This is REAL SERVICE.

Send your dues to

C. W. Brown, Treasurer, Ashland, Mass. The Secretary will gladly send you schedule and Prize List.

Ontario, Canada, Dec. 1919.

Dear Sir:

Goldfinch is a magni^ecent flower and a strong healthy grower with extra long spike which grow up straight while many of my older varieties of bulbs on account of the heat had crooked spikes. Had 11 blooms open at one time on spike, it lasted nearly two weeks after it was cut, every bloom opened, sorry I did not make note of number of blooms on spike. It is a grand yellow. I dug two bulbs and 11 bulblets from the one bulb.

A. G. P.
